

THE SUGAR INDUSTRY.

Extract From a Letter Written by
Eminent Authority on

THE SUBJECT OF SUGAR BEETS.

The Industry One Not Easily Over-
done by Increased Cultivation.Interesting Figures Gleaned by a
Careful Study of the Situation—
In European Countries.I received and read with much pleas-
ure and interest the issue of THE ARIZONA
WEEKLY REPUBLICAN, published on April 28,
you sent me.Not only the sugar beet crop is the
most profitable one by itself that farm-
ers can raise, but also it improves the
lands on which beets are raised, and the
yield of the following crop brought forth,
say wheat, weighs in grain not less than
25 per cent more. It is that fact when
plainly ascertained has made the rais-
ing of beets so popular in Europe.For instance in Germany where taxes
are paid on the weight of beets worked
in the beet sugar factories, the total
amount of beets weighed by the govern-
ment agents in 1871 is 2,250,913 long
tons and in 1881 10,623,319 long tons,
viz: Almost a fivefold increase. Besides
when the sugar is extracted from the
beets, the residue pulp when properly
proportioned, is a most valuable food
for cattle; it increases their daily quan-
tity of milk.As to the sugar consumption our
home market is annually more than
3 billions of pounds, mostly furnished
by foreign countries. There is plenty
of room for ourselves as you see.The above letter was sent to a citizen
of this city by Frank DeConinck of San
Francisco, Cal., one of the best authori-
ties on the subject on the Pacific slope.

JOHNSON COUNTY TRAGEDY.

No Further Particulars of the Shooting—
William Hathaway Arrested.DOUGLAS, Wyo., May 16.—No further
news has been received from the scene
of yesterday's tragedy in Johnson coun-
ty. Some one has broken the wire from
here north and the operator here
has been unable to communicate with
Buffalo since 3 o'clock this afternoon.
At that hour the sheriff and posse who
went after the body of Wellman had
not returned, although they expected
when they left Buffalo to get back by 10
o'clock this morning.Hathaway, who was riding with Well-
man at the time the assassin's bullet
struck him down and who carried the
news of the tragedy to Buffalo, has been
arrested. It is believed he either com-
mitted the crime himself or was in col-
laboration with the assassin. He denies
all knowledge of the crime.

OPEN THE FAIR ON SUNDAY.

Resolution Passed by the Association of
Machinists.CHICAGO, May 16.—The International
Association of Machinists in convention
passed a resolution asking, on behalf of
the 50,000 workmen, they represent, that
the world's fair be opened on Sun-
day.The following were elected members
of the General Executive board: J. O.
Connell, Oil City, Pennsylvania; H.
Gardner, Washington, D. C.; G. C.
Goodwin, Cheyenne, Wyoming; J. C.
Schott, Galveston, Texas; C. Castleman
Chicago; D. Douglas Wilson, Birming-
ham, Alabama; and W. G. Ashe, Boston,
Massachusetts.The place chosen for the holding of
the next convention is Indianapolis.
The work of the assembly is now prac-
tically completed. The convention will
adjourn tomorrow evening.

PROBABLY FATAL ACCIDENT.

An Ore Hauler Badly Crushed at Lead-
ville.LEADVILLE, Colo., May 16.—Alexander
Polen, an ore hauler, was the victim of
a runaway accident this morning which
injured him so severely death may en-
sue. Polen was coming to one of the
local smelters with a heavy load of ore
drawn by six horses. On a down grade
the team became frightened at a passing
engine, and despite the efforts of the
driver ran away. The heavy wagon
struck an obstruction and upset. Polen
was thrown violently to the ground,
most of the contents of the wagon fall-
ing on him. He was picked up in an
unconscious condition and carried into
an adjoining house, where it was found
he had sustained several broken ribs
and internal injuries.

DEATH SPOILED THE GAME.

A Rooster on His Way to Buy "Green
Goods" in New York Drops Dead.INDIANAPOLIS, May 16.—W. A. Scott,
who lived at Stone's Crossing, Johnson
county, all his life and bore a good re-
putation, sent the following dispatch
from here Saturday night:E. J. Warren, 315 Canal street, New York:
All right. Will leave Sat. A. M. Scott.This was sent in response to a summons
from a green goods dealer whom Scott
sent out to meet in New York. At the
depot here, however, he dropped dead.
In his pocket were found instructions
from the green goods man as to what he
should do in New York.

BLACKMAILED HIM.

A Man Shoots a Woman With Whom He
Had Been Intimate.LINCOLN, Neb., May 16.—Myron Pratt
engineer at the postoffice building, to-
night shot and instantly killed Mrs.
Margaret H. Herry. The shooting
took place in the heart of the residence
part of the city and almost at the door-
step of the woman's home.The only known motive for the affair
is found in the story of Pratt, who
claims that two years ago his victim
had been extorting money from him by
a system of blackmail. The two are
known to have been very friendly at
one time, and their intimacy nearly
caused a separation of Pratt and his
wife.

Gentle Democrat Wins.

SALT LAKE, Utah, May 15.—In a case
tried in a justice court here today it was
practically decided that the Gentle
wing of the Democratic party constitu-
ted that organization in Utah, instead
of the wing composed of mixed Mor-
mons and Gentiles. The decision, the
Gentile Democrats believe, will have
great influence with the committee on
Credentials in the National convention
and will secure their delegates their
seats.

Wants \$250,000.

SAN FRANCISCO, May 16.—John W.
Mackay and R. V. Dray, executors of the
estate of Mrs. Theresa Fair, ex-wife of
the mining millionaire, refused to paythe claim of a quarter of a million pre-
sented by Archbishop Riordan. The
claim is founded by contract made by
Mrs. Fair in 1880 agreeing to give the
archbishop the sum named for a Catho-
lic seminary.

THE PLANTAIN.

The New Fruit to be Popular for American
Consumption.No one can travel through the Span-
ish republics and feast on the profusion
of rare and delicious tropical fruits with-
out wondering why they are not ship-
ped to the United States in larger quan-
tities; and one has only to be at home
for a few weeks to feel hungry for a
taste of rich roast plantain, of juicy
mango, or nature's ready-prepared
salad of alligator pear, a dream in yel-
low, juicy and green, says a writer in
the Chicago Inter Ocean. The time is
near at hand when we may all enjoy
these luxuries without going to the land
of scorpions, tarantulas and "poco
tiempo" ways. Fifteen years ago the
banana was a curiosity brought only to
this land by sailors loaded with ma-
goes. Today it is tickling the palate
and tripping the heels of the Yankees
from classic Boston to the latest mining
discovery in the Rockies. In 1881 the
Illinois Central railroad handled only
370 cars of bananas and in 1891 over
5200 cars. Last year the total value of
this fruit imported by Uncle Sam's
boys was \$72,000,000. There is another
fruit closely resembling the banana that
is superior to it in many respects and will
become a greater favorite with every
one as soon as the people become ac-
quainted with it. It is the plantain, Pa-
raquet fruit imported by Uncle Sam's
boys as \$72,000,000. There is another
fruit closely resembling the banana that
is superior to it in many respects and will
become a greater favorite with every
one as soon as the people become ac-
quainted with it. It is the plantain, Pa-
raquet fruit imported by Uncle Sam's
